I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, **I OBJECT** to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I hope I'm not too late - just got notified of this. 16 years ago I was lucky enough to find a pharmacy to accommodate my medication needs in a state other than my own. The compounded natural hormone I take has been miraculous for me in dealing with very severe symptoms that were interfering with my day to day life. I am allergic to many medications and it is imperative for me to continue to receive the hormone I need in as natural a form that is possible. I have been unable to get it made this way in any pharmacy in the Chicagoland area.
